THE VISION FOR THE LAKE ONTARIO GREENWAY	6
EXECUTIVE SUMMARY	9
CHAPTER ONE: INTRODUCTION	15
Background	16
Goal and Objectives	18
The Greenway	20
Context	21
Process	23
Purposes of the Strategy	23
Guide to the Report	24
CHAPTER TWO: THE WATERFRONT OF TODAY	25
The Great Lakes and Bioregional Contexts	27
The Physical Environment	32
Shoreline Processes	34
Biological Processes within the Lake	38
Water Quality: Lakewide and Nearshore	40
Air Quality	47
Landscape Biodiversity	48
The Development of Human Communities	52
Human Populations of Today	58
The Economic Environment	60
Waterfront Visitors	65
Challenges and Opportunities	68

CHAPTER THREE: THE WATERFRONT OF THE FUTURE 73**Objective 1: 75***Protect the physical, natural and cultural attributes associated with the Lake Ontario Greenway*

Action 1.1:	Protect significant coastal features and habitats	75
Action 1.2:	Protect waterfront natural core areas	78
Action 1.3:	Protect bioregional habitat corridors and connections	81
Action 1.4:	Protect water quality from further deterioration	83
Action 1.5:	Protect places of archaeological, historic and cultural significance	86

Objective 2: 90*Identify restoration needs and methods and encourage landowners, communities and agencies to undertake regeneration activities*

Action 2.1:	Restore the supply of natural habitats that sustain biodiversity	90
Action 2.2:	Target restoration programs to priority habitat types	94
Action 2.3:	Restore natural shoreline structure and processes	99
Action 2.4:	Restore balance to Canada goose populations	100
Action 2.5:	Restore degraded waters and sediments	101
Action 2.6:	Restore sites with contaminated soils or groundwater	105
Action 2.7:	Strengthen community identity and landscape character	109

Objective 3: 111*Promote greater awareness, understanding, access and recreational use of the waterfront and encourage community pride and participation in its regeneration*

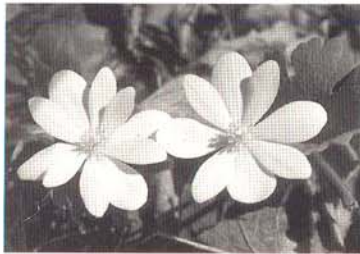

Action 3.1:	Encourage appropriate access to and use of the waterfront	111
Action 3.2:	Complete and upgrade the Waterfront Trail	114
Action 3.3:	Develop public understanding of waterfront processes and values	117
Action 3.4:	Develop community participation in waterfront projects	119
Action 3.5:	Strengthen traditional waterfront festivals and celebrations	121
Action 3.6:	Recognize changing populations in planning waterfront recreation	123
Action 3.7:	Link recreational resources with health promotion	124
Action 3.8:	Increase accessibility to all members of the community	125

TABLE OF CONTENTS

Objective 4:	127
<i>Promote economic activities and employment on the waterfront that are compatible with other Greenway objectives</i>	
Action 4.1: Enhance the role of existing and new economic activities	127
Action 4.2: Ensure appropriate location and design of new development	130
Action 4.3: Monitor and respond to changing patterns of harbour use	134
Action 4.4: Identify and develop tourism/recreation destination areas	136
Action 4.5: Develop new waterfront attractions	140
Action 4.6: Develop joint packaging and marketing of themed waterfront experiences	144
Action 4.7: Reduce conflicts between transportation corridors, waterfront access and sense of place	147
 Objective 5:	 149
<i>Foster cooperation in cost-effective public and private initiatives by reducing jurisdictional gridlock, sharing resources, and coordinating waterfront activities</i>	
Action 5.1: Integrate the application of provincial policies, regulations, and processes	149
Action 5.2: Coordinate the allocation and timing of funding to waterfront projects	152
Action 5.3: Assist in resolving jurisdictional or policy conflicts	155
Action 5.4: Standardize and link research and information networks	157
Action 5.5: Evaluate the cumulative effects of waterfront changes	160

CHAPTER FOUR: IMPLEMENTATION	163
A. Planning/Regulatory	164
A.1 Municipal planning and environmental assessment	164
A.2 Legislation affecting use of water's edge and offshore	166
A.3 Other regulatory instruments	168
A.4 Watershed strategies and subwatershed plans	170
A.5 Remedial Action Plans	170
A.6 Integrated Shoreline Management Plans	171
B. Stewardship	171
B.1 Management of public lands	171
B.2 Land acquisition by public agencies	172
B.3 Landowner contact	173
C. Funding and Incentives	175
C.1 Coordinating plans and projects with funding opportunities	175
C.2 Directing economic incentives	175
C.3 Attracting private funds to waterfront projects	176
Defining Roles for Waterfront Regeneration	178
APPENDIX A: WATERFRONT NATURAL CORE AREAS AND CORRIDORS	182
APPENDIX B: PARTICIPANTS	191
APPENDIX C: GLOSSARY	201
APPENDIX D: BIBLIOGRAPHY AND TOOLKIT	207
PRODUCTION CREDITS	216
